

Server Matcher Demo Guide

1. Ditto Company Matcher

1.1 Insert first company name. For the purpose of this demonstration, we chose the company **Siemens AG** based in Berlin. The location of the company can be chosen on the given map, which will automatically insert coordinates.

1.2 Insert second company name and chose the location in the same way as shown in step 1.1. Here, we choose DATEV eG, based in Nurnberg. Afterwards, compare the companies based on the Ditto pre-trained model by pressing the **MATCH** button.

2. GPT Company Matcher

In order to switch to the GPT Matcher, use the slide toggle in the upper right corner. To compare desired companies using this matcher, repeat the above given instructions.
